Thinking Out Loud

By H. M. L.

Gradually the old lion gathers himself for the leap that will break the Nazi back. Yes, of course, we remember Norway, France, the Low Countries, Greece and Crete. The lion was only taking exercises in those adventures. He was only giving his stiff muscles and ancient joints a workout, as it were. The lion who dreamed he would never need to fight again, whose great progeny had grown up and were fending for themselves in a world of peace, has slowly gathered himself for that final spring to prove again the old adage that Britain loses all the battles but wins the war.

When the British people win this war with the backing given by billions of dollars worth of munitions that the people of this country are paying for, and will pay for for generations to come, it will be time for the old lion to retire from his patriarchal post of leadership in world affairs. He is getting a bit rusty and drowsy, after a thousand years of civilizing the "lesser breeds." His eyes are not so keen for the dangers that threaten. The old leader's fangs and claws have dulled. A new leader must come, a leader alert to every danger signal in any quarter of the globe, and alert also to all those human discontents in which wars ferment.

Will that new leader be the United States? We hope so and we hope that if we pick up the shepherd's crook which England lays down, we will have the wisdom to use it firmy and with grace. For that will be more of a test of our national character than winning wars. When so much of the world resorts to force to attain its goal, and it is finally defeated, any peace agreement must provide for abundant force to maintain the peace. That is why doubling the navy and multiplying the army by ten is so important. For human nature being what it is, still needing a policeman on every city block the world around, nations which dream mightily of aggression must be policed by the army and naval forces of those other nations which believe that peace, not war, is the normal condition of civilization.

When the old lion makes that last and final spring, the effectiveness of which will be due to the teeth and claws we have provided, he will be through with his role. From there the United States must take over, if the ideals of democracy are to be defended and preserved in centuries to come. It is for the thinking people of today, therefore ,to consider how wisely and how ably we shall take over that task of world leadership. There should be enunciated a new constitution to govern world affairs, with provision made for enforcing the peace terms contained in the treaty that follows this war. The principles expressed in that constitution should of course find first expression in the peace treaty.

Hateful as it may be the millions who have suffered, have lost their all, have been bereaved of their loved ones under the bloody wheels of Hitler's ghastly juggernaut, the first principle in that new world agreement must state explicitly: "No revenge." There was too much of revenge in the treaty of Versailles. Revenge merely plants dragons teeth that in a little while grow again to marching armies and earth shaking reprisals. Revenge must be ruled out first of all. Whatever Germany suffers from her war orgy and it s vast waste of national energy, she must suffer as a natural result of such waste, such vast depletion of her national reserves of materials and man power. That misery will be enough without placing one

(Continued on Page Two)

Will Zeibright Tailings Be Dumped In Yuba?

Speculation on the Empire-Star Mines, Ltd., intentions for the Zeibright Mine, formerly the state's largest tonnage producer but which has been idle except for development work since the tailings dam washed out eighteen months ago, gained interest this week when it was revealed the company has started driving a tunnel from the Yuba River toward the Zeibright workings on the other side of the mountain.

Although the Empire-Star officials have made no statement of their intentions, it is expected in some sources that the tunnel which will connect the Yuba River with the Zeibright workings will be used as a tunnel to transport the Zeibright mill tailings to the river, upon which the Upper Narrows Debris Dam is located.

To operate the Zeibright mill at its present location it would be necessary for the company either to construct a new tailings dam on Bear River, which would involve much expense, or to find other means of disposing of the slickings from the mill.

The sending of the tailings through a tunnel from the mill to the Yuba River would probably save a lot of expense.

Another theory advanced is that the huge 1,000 ton Zeibright mill may be moved from its present location to the Yuba River and the ore trammed through the tunnel being driven to the mill at its new location.

Peculiar Storm Does Damage To Flower And Vegetable Gardens

A peculiar thunder and wind storm, followed by a heavy deluge of rain, visited Nevada City and surrounding territory early Wednesday damaging flower and vegetable gardens to a considerable extent and blowing leaves and branches from the trees.

In Grass Valley the damage was more severe. A bolt of lightning struck transformers and plunged the city into darkness for a time. Telephone communications were down for a while. A tree fell across the power line below Grass Valley on the hoe-Ukiah Highway and started a fire, which swept through 100 acres of brush and timber before controlled. The fire threatened houses in the vicinity for a while.

Several lightning fires were started in the Tahoe National Forest but they were all extinguished before much damage was done.

John Albert Carter, Pioneer, Called By Death Last Night

Death late last night claimed John Albert Carter, 78, one of the city's best known pioneer residents. Carter, a familiar figure on Nevada City streets, died at the Miners Hospital following an illness of several months.

The funeral service are being arranged by the Holmes Funeral Home.

The deceased was born at North Columbia on May 13, 1863 to Mr. and Mrs. William Carter. His first employment was in the hydraulic mines and it is believed he is one of the last survivors of the crews who worked in the famous Malakoff Hydraulic Mine.

Later Carter became a stage coach driver between Nevada City and North Bloomfield. He later worked at Hobart Mills, former thriving lumber camp on the eastern end of the county.

For quite a few years, past Carter lived at the Sierra Hotel and delighted in talking of the old days to friends and acquaintances.

The deceased leaves his wife, Martha L. Carter of Santa Ana, five danghters living in Santa Ana and a son, Ray P. Carter of North Bloomfield.

He also leaves many nieces and nephews, including George Carter, former Nevada County sheriff; Will Carter of the Philippine Islands and Lawrence Carter of Nevada City.

MISS MESERVEY RETIRES FROM POSTOFFICE

Postmaster Betty Martin West announces the retirement of former Assistant Postmaster, Mary E. Meservey from the Nevada City office, a post which she has held since 1918. Miss Meservey has given the public years of gracious, faithful service and has a legion of friends who wish her full enjoyment in the leisure she has earned.

Mrs. West has appointed Elbridge W. Skeahan to replace Miss Meservey as assistant postmaster, his appointment becoming effective July 1, 1941.

Mr. Skeahan has completed his probationary period and assuming the duties of assistant and has proven his ability beyond question. Mr. Skeahan possesses a pleasing personality, is a favorite with the public and is receiving congratulations from his many friends who wish him success in his new endeavor.

Body of Man Believed Dead Year Found Near Here Last Night

The body of Elmore W. Driscoll, 62, believed to have been dead a year, was found last night on the Mrs. E. Kriegel property near here by J. H. Mason of this city.

Coroner A. M. Holmes is conducting an investigation. The body was badly decomposed. Newspapers in the belongings of the deceased were dated July, 1940, leading the officers to believe death was near that time.

The body was clad in underclothing. Nearby was a bed roll. Identity was made from a fishing license found on him.

The body is at the Holmes Funeral Home here.

BISHOP PORTER AT TAHOE CHAPEL NEXT SUNDAY

Bishop Noel Porter of the Sacramento Diocese will preach next Sunday morning at the Outdoor Chapel at Tahoe at 11 o'clock. Many Trinity church members will attend services there next Sunday. Members of both Emmanuel and Trinity Churches are cordially invited to attend next Sunday morning's service at the lake. There will be a picnic lunch in the chapel grounds following the service.

Church services in both Emranuel and Trinity churches will be suspended until early in September. Exception to this vacation rule will be a service in Grass Valley Sunday July 27 at 10 a. m.

BELATED REGISTRANTS

Three belated resigtrants have been added to the list of those registering for selective military service on July 1. They are: Ernest Walley, Grass Valley; Leslie Stoker, Nevada City; and Loyle Maxson, Bowsone, Nevada.

PROMOTED

Ralph Hunt, top sergeant of Company, 115th, which was recruited in Grass Valley in March, has been promoted to a commission as second lieutenant in that company.

Col. Percy E. Barbour of New York City is a guest of Bret Harte Inn.

SNIPERS GET GOOD RETURNS ON BLACK SAND

Snipers, the river and creek miners, who, statistics show, barely eke out a living wrestling huge boulders on the stream beds, may find their back breaking efforts more fruitful this year.

Hal Draper, local assayer, reports the snipers are turning to mining black sand, which in some instances yields heavy returns.

The snipers in this area are selling considerable gold but they expect to do even better when the streams become lower.

Each year the creeks and rivers stir up new gravel and the snipers work the bars and crevices to obtain any gold which may have been washed onto them by the winter watters. Much of the activity of the snipers is on the branches of the Yuba River, among the richest placer streams in the early days.

NEVADA CITY TO BATTLE GRASS VALLEY

The Grass Valley and Nevada City baseball squads, with one victory each to two losses in the Foothill Baseball League standind, will tangle at Cashin's Field here Sunday.

Last Sunday Nevada City forfeited to Placerville but the locals, under the managership of Richard Biggs, hope to field a strong team against the Braves of Grass Valley, who dumped Rocklin, first half champions, by a 11 to 1 score last Sunday.

Bill Livesay will probably do the pitching for Nevada City with Ainsley Fouyer behind the plate. Mel Stinson will be the Grass Valley hurler with Joseph Cukjati catching.

FOOTHILL LEAGUE STANDINGS

Auburn	2	1	.667

NEV. COUNTY TAX BELOW AVERAGE FOR CALIFORNIA

SACRAMENTO, July 17.—California property owners paid an average tax of $4.18 per $100 assessed valuation during the 1940-41 tax year, according to a compilation made by the State Board of Equalization.

In comparison to this state wide average, the average rate of county, city, school district and other special or general taxes in Nevada County amounted to $2.60 per $100 assessed valuation last year.

The state wide average rate represented a 6-cent increase over the previous year. it was pointed out by Fred E. Stewart member of the board.

Indicative of the tax trend in recent years, board records revealed that the following average local rates had applied.

1938	$3.98
1939	$4.04
1940	$4.12
1941	$4.18

Stewart explained that it was necessary for the board to determine the average rate of taxation in order to adopt a rate to be applied annually to the rolling stock of car companies whose holdings are taxable under the "Private Car Tax Act of 1937."

Employment Gains Slightly In Mines Of N.C.-G.V. District

TWO NEW QUARTZ VENTURES STARTED IN PAST MONTH; HYDRAULICKING PRACTICALLY SUSPENDED

Employment in Nevada County mines gained slightly during the past month, despite the call to defense industries of some of the miners.

A survey reveals there are 2,229 men at work in the mines of the Grass Valley-Nevada City area. The monthly payroll is approximately $334,350.

Lack of water has practically brought all hydraulic mining to a close for the season. Hydraulicking will resume after the first heavy rains. In the meanwhile, the Omega and Relief Hill Mines, the largest hydraulic properties, intend to build water storage facilities and ditches and flumes.

The Omega Quartz Mine in the Willow Valley district was reopened during the month by Carl Trevethick. It was also reported the Michigan interests who last year took an option on vast mineral ground on the Town Talk Ridge between the Lava Cap and Town Talk has started dedelopment work on several veins which appear on the surface.

The Nevada City district producers, Murchie Zeibright and Lava Cap remained practically stable, as far as employment is concerned, during the past month.

The Zeibright has started work on a tunnel on the Yuba River side of the mountain to connect with a tunnel being driven from the Zeibright shaft, located on Bear River.

Considerable development work is being done at the Murchie. Various rumors are heard on the results of the development work but no official statement has been released by company officials.

The operating mines, their employment and payroll, follow:

	Men	Payroll
Empire-Star Mines—		
Empire	420	$63,000
North Star	310	46,500
Pennsylvania	115	17,250

Fire Burns Home Of Victor A. Cassidy, Downieville Publisher

Three Downieville firemen were overcome by smoke Monday afternoon in fighting a fire which destroyed the three story residence occupied by Vic Cassidy, publisher of the Mountain Messenger.

Earl Turner, 36, one of those overcome, also was struck by falling plaster or wood and was reported still seriousuly ill today. Kenneth Latta, 45, and Leonard Lansdowne, 40, have recovered from smoke effects.

The building was owned by M. A. Costa. An iron roof confined the flames and the fire burned for three hours with dense billows of smoke.

NEVADA COUNTY IS FEATURED IN S. F. FILM STORY

SAN FRANCISCO, July 17.—Scenes of Nevada County's versatile mining, agricultural and lumbering activities are included in film footage which San Francisco has purchased as the basis of a motion picture depicting San Francisco in its economic setting.

The shots of Nevada County, originally taken for exhibition at the Golden Gate International Exposition, feature the gold mining which make this county the largest producer in California, the fruit production for shipment to early eastern markets, stock raising and lumbering.

This film, together with pictures of the farm and mining enterprises of other Northern and Central California counties, has been purchased by the Regional Service Committe of the City and County of San Francisco from Alta California, Inc., organization of Northern California county supervisors.

It will furnish the basic material for a moving picture showing the relation of San Francisco to the richly productive counties which the city serves commercially and from which the city draws as a trade center.

The picture, when complete, will illustrate not only the important agricultural and mineral resources of this region, but also the San Francisco facilities for processing, trade and transportation.

The value of close cooperation between rural and urban interests in realizing to the full the future potentialities of all Northern and Central California will be stressed.

The picture will be shown to San Franciscans and to neighboring communities to emphasize the importance of coordinating rural resources and city facilities as a joint enterprise requiring mutual understanding and mutual effort for mutual benefit.

The counties whose activities are included in the film already bought are Colusa, Glenn, Butte, Yuba, Sutter, Plumsa, Sierra, Nevada, Placer, Eldorado, Amador Calaveras, Tuolumne, Mariposa, Mono, Inyo, Stanislaus and San Joaquin.

Born—

Word has been received of the birth of a daughter to Mr. and Mrs. Kenneth Nobs of El Paso, Texas. Young Nobs is the son of Mr. and Mrs. Fred Nobs of the Empire-Star Mine.

School Board Appoints Two New Teachers

The board of education of the Nevada City Unified School District Monday night appointed Mrs. W. S. Wolfe as teacher at the You Bet school and Mrs. Iva Welch as teacher at the Sweetland school.

Parents of the You Bet district, a part of the Nevada City school district, asked the board to provide the tranportation for high school students.

The board said it would take under consideration a petition presented by Mrs. Charles Everheart, asking the establishment of a kindergarten here. The petition was signed by 31 parents of children kindergarten age.

Supervisor Jay Coughlan of Columbia Hill was a Nevada City visitor this week.

OUR FLAG GOES ABROAD

It's a far cry from Hoboken to Iceland; farther still from California to that strategic, ice-bound isle, which American troops now patrol and are pledged to hold against all aggressors. It's a long jaunt. too. from here to Trinidad and British Guiana in the Caribbean, but American troops have taken over in both places.

For better or worse, whether we believe in it or not, our Flag has gone abroad, with United States muskets to defend it. It is not our purpose, in this editorial, to argue the merits of the case; the deed has been done; the Rubicon has been crossed!

We have dispatched men of the Navy to the frozen north, and men of the Army to the tropical south—assertedly to prevent Nazi encirclement of the United States. And no matter what we may think about it, this is the most momentous military decision this nation has made since the first World War. Translated. these moves mean that we are no longer on the deensive; we have taken the offensive against the German Reich.

Realistically, perhaps that is the right thing to do; certainly. every nation which has waited for Hitler to move first has lived to regret it. If we must fight, as many of our most dependable observers now believe, then, at least, we should be in position to keep the fight from our own shores: we should anticipate Hitler's moves and check-mate them. If Hitler has no plans for world conquest then we are assuredly wrong. for we are invading his hemisphere and asking for trouble. Whether we have done the right thing or the wrong thing—that's all a matter of "if." The fact remains we have done it. That's something to chew over.—Contributed.

SMOKESTACKS IN THE WEST

A new cycle has come to the West. just as significant. in many respects. as the passing of the Old West. The transformation is going on before our eyes. but many of us, preoccupied with our individual responsibilities. may have failed to grasp ts full importance. What will undoubtedly become the greatest industrial empire in the United States—the greatest the world has ever known—is building. right at our doorstep. New industries are springing up by the hundreds and established industrial plants are expanding so fast that manpower can't be found to handle the work.

National defense contracts totaling more than two billion and a half dollars were received by industries in the Far West during the twelve-month period which ended June 30, and it is expected that at least two billion dollars worth of additional orders will be placed with Pacific Coast manufacturers during the coming six months. In California. approximately three-eights of this state's industrial workers are now employed in building ships and airplanes. Shipbuilding employment, while it has doubled during the past year is scheduled to double again before peak production is reached.

To furnish the raw materials for defense goods. a whole set of basic industries are being built on the Pacific Coast. There are two new aluminum plants on the Columbia River which will not reach capacity until fall. Three more are planned—one each in California, Oregon and Washington—which will give the coast approximately 28 per cent of aluminum ingot capacity now contemplated for the whole country. There is a magnesium reduction plant near completion at Los Altos, with another possible in the Northwest. There are plans under consideration to add 1.500.000 tons annually to ingot capacity of Pacific Coast steel mills. In addition. the lumber, oil, power, agricultural and railroad industries of the West are expanding rapidly.

Every day. new smokestacks are raised to the sky. Every day industrial payrolls soar to new highs. The New West is building.—Contributed.

ARMY DOUBLES DEFENSE ORDERS TO BUICK CO.

FLINT, Mich., July 17.—Increased federal commitments for plant expansion and aircraft engine production have boosted Buick's defense job to virtually double its original size with contracts now calling for plant and equipment and projected output of 1,000 engines a month—increased from 500 a month.

This was announced today by Harlow H. Curtice, president of the automobile concern, following confirmation at Washington of an $88,000,000 expansion in the Buick defense enterprise.

The executive disclosed that in view of the expansion, it now is proposed to manufacture aircraft parts at the Flint plants resulting in the probable employment of an additional 5,000 men on defense work in addition, in excess of 10,000 will be employed in the Chicago plant where machining operations and assembly and testing of the engines will take place.

Mr. Curtice said that as a result, work already is under way on the conversion of certain Buick plants into production lines for the fabrication of aircraft parts. At the same time, changes were made in the original construction program at Melrose Park, Ill., where planned facilities were immediately stepped up to meet the expanded program.

"The Army Air Corps has increased its commitment to Buick for the Pratt & Whitney aircraft engines by $88,000,000 and authorized an increase in production from 500 to 1,000 engines a month at the factories now under construction," Curtice's statement said.

Mrs. Hunt Dies At Veit Ranch

Final rites are being arranged at the Holmes Funeral Home in Grass Valley for Mrs. Ruhana Edith Hunt, 77, who died at the Veit Ranch in the Wolf district yesterday afternoon.

Mrs. Hunt was a native of Indiana. She leaves four sons one daughter and a brother.

Federal Funds For Fighting Pine Rust

SACRAMENTO, July 17.—(UP)—Federal funds for the white pine blister rust control program in California probably will be available early next spring, M. B. Pratt, state forester, said today.

Known in the east as "syphilis of pine," the disease has penetrated southward into California as far as Lassen county. It entered the western states from British Columbia and worked down the coast, Pratt said.

The The California legislature recently appropriated $50,000 for the program during the next biennium, slashing the requested amount in half. Gov. Olson signed the bill which becomes effective in September.

Have House Guests—

House guests of Mr. and Mrs. Hugh Jones of Willow Valley last week were Mr. and Mrs. Ralph Stitch of Los Angeles.

GIOVANNETTI - LYSTRUP — In Nevada City, Nevada County, July 15, 1941, by Frank David Giovannetti, 19, and Wanda Lystrup, 18, both of Nevada City.

THINKING OUT LOUD

(Continued from Page One)

iota of revenge in the peace treaty.

The leadership which the people of the United States must assume, when this war is done, will call for everything it possesses in practical idealism and in "good neighborliness of a world-wide kind. If our sense of justice has been dulled in recent years we must sharpen it, and apply it with even handed vigor to international relationships. If the present emergency calls for courage, the new leadership will call for greater courage. All that Yankee resoucefulness we have prided ourseves upon down through the years will be needed in the compromises we must make to succeed in establishing, with the help of other nations now aligned against the dictators, that peace from which blessings instead of new wars, may flow.

Visits Parents Here—

Miss Bernice McQuay spent the week end at her parents home. Miss McQuay has recently accepted a position in the office of the J. C. Penney Store in Oakland.

JUST WONDERIN'

I wonder at the gleaming orbs
That throng the sky when day is done,
Replacing with their mellow beams
The golden splendor of the sun,
I wonder if there's one that cries,
"This night I shall not shine.
The heavens are all ablaze with light,
Why waste this little beam of mine?"

I wonder at that most regal of all sciences, astronomy, and at the amazing discoveries made by its adepts during recent decades. With greatly enlarged and vastly more powerful telescopes at his command, the modern astronomer follows new pathways through limitless realms of space and enriches the world with fresh and astounding information which staggers human imagination.

Stars, planets, pale moons and flaming suns have been weighed and measured, their times and seasons recorded and their incredible distances from our own puny habitation revealed. Still the glass eyes of great telescopes search the midnight heavens and well do the astronomers know that beyond all that present day instruments have disclosed, lie other wonders to be added in due time to the ever increasing knowledge of the skies.

It is strange to consider the fact that when, in long aeons past the first intelligent anthropoid stared up at the night sky, he saw no more and no less than we of this age are able to discern with our unaided vision. All the stars he saw are still in their places, every constellation is still intact.

I wonder what would happen if one among these steadfast orbs should suddenly vanish from our view; if Jupiter, Saturn or even a very small and unimportant star should stage a black out. It is easy to imagine the state of consternation which would prevail in astronomic circles and the superstitious terror which might mark many unscientific minds for its own. The stars however. pursue their ancient courses, reflecting back the glory of their god, the sun, or blazing forth with their own inherent light. We do not fear change and revolution in the placid skies above us: order has been so long maintained that its disturbance is unthinkable.

I wonder if there is a lesson for us in the steadfastness of the stars—in the faithfulness with which even the lesser orbs have held their places in the sky and sent their heavenly light to gild earth's gloomiest shadows and guide the wanderer through the night. Perhaps, in the constancy of the stars above we may read the old, old message, "let your light so shine before men."

Uncle Silas says: "If a star should drop out of the sign I was born under, would I have to buy me a new horoscope? Oh I forgot I was born under the empty place in the north. A disorganized constellation is one thing I don't have to worry about."—A Merriam Conner.

Robert Braithwaites Now In Montana

The Miles City Daily Star of Montana reports that Mr. and Mrs. Robert Braithwaite, formerly of North San Juan, participated in the installation of officers in the Grant P. March Navy Mothers club of Miles City. Braithwaite is a naval recruiting officer and is now stationed there. Mrs. Braithwaite was formerly a correspondent of the Nevada City Nugget.

Miss Beverly Flynn and Miss Betty Jean Flynn are visiting relatives, Mr. and Mrs. Larry Jensen of Oakland and are spending a few days with Mr. and Mrs. Ed Roddy formerly of Nevada City.

To Head Nev. County Agri. Defense Board

William Jaeckle, Chairman of the Nevada County Argicultural Conservation Committee, will head a United States Department of Agriculture Defense Board for Nevada County in accordance with an order from Secretary of Agriculture Claude R. Wickard proclaiming national defense to be the department's first order of business "for the duration."

In his memorandum creating the boards in each state and agricultural county in the United States, Wickard announced their principal objectives will be "to expedite and coordinate in the field administration of the activities carried on by the Department of Agriculture in furtherance of or that involve the national defense, and to coordinate these departmental activities with activities of other defense agencies in the field."

From Marysville—

Mrs. Del Little and family of Marysville are spending a vacation on Grouse Ridge near Washington. Mrs. Little is a sister of Mrs. Oscar Odegaard.

CONGRESS BANS PROSTITUTION NEAR CAMPS

Congressional action in making prostitution a federal offense in areas to be designated around military and naval posts is hailed as a forward step in the control of venereal diseases by Dr. Bertram P. Brown, director, State Department of Public Health.

The May Bill, H. R. 2476, became law this week and prohibits prostitution within such reasonable distances of military or naval posts as the Secretaries of War and Navy shall determine to be needful to the efficiency, health and welfare of the armed forces.

"Remarkable progress has been made in the control of venereal diseases in a number of defense areas in California where local officials have anticipated the May Bill and have taken effective steps to repress prostitution. It is expected that other localities, where vice conditions still exist, will undertake repressive measures to forestall federal action," Dr. Brown said.

"A marked drop in the rate of new infections with syphilis and gonorrhea among both civilians and military personnel has occurred in several defense areas where prostitution has been repressed. This is most striking because there had been a decided rise in new infections in these same communities during the first few months of the defense program before the racketeers of commercialized vice were checked."

THIS WEEK in DEFENSE

OPM conseervation officials announced that "our purchases, our habits, our daily lives, perhaps even our styles, will be controlled by the requirements of national defense." Some of the changes facing the public, according to OPM: No corks in bottle tops, beverages in bottles rather than cans; silk used in parachutes will make silk stockings more scarce; women will have fewer permanent waves, cosmetics and facial creams; it will not be patriotic to buy two automobiles; farmers will choose from 300 instead of 1400 types of plows; chrome, copper, aluminum and woods such as mahogany will probably not be available to the furniture industry and many designs will be eliminated.

PRICES

Price Administrator Henderson announced that price ceilings on the rubber tubes and other rubber products will be deferred for several months to allow the industry time to work out price problems voluntarily. He announced, however, that ceiling prices will be placed within a few days on cottonseed oil and certain grades of West Coast lumber used by the government. Henderson also stated that recent action to check rises in hide prices does not mean the OPACS expects to freeze livestock or meat prices.

ARMY

The president asked congress for an additional $4,700,000,000, for the Army, most of it for purchase of the heavy guns, $400,000,000 for clothing and other equipment, $200,000,000 for the Air Force and $350,000,000 for the Signal Corps, and $1,000,000 for horses.

The War Department announced formation of a completely motorized and heavily armed experimental division stengthened with tanks, with 50 per cent more fire power than a present armored division although with 14,000 instead of 15,550 men. The department also announced that to bolster anti-tank defenses, anti-tank specialists will be assigned to every army large unit to work out methods of defeating armored force attacks.

NAVY

The President asked congress for $1,625,000,000 in appropriations and contract authority for the Navy for additional ordnance, yard equipment, planes, and repairs, including $400,000,000 for defense installations on naval and private ships—anti mine equipment, armor, etc, but, the President emphasized, not for guns to arm merchant ships.

Rear Admiral Robinson, Chief of the Navy's Bureau of Ships, announced the Navy shipbuilding program is proceeding so rapidly that "every single combat ship is ahead of schedule." He said the problem of labor supply has been solved and the rate of expansion is limited chiefly by the ability to obtain materials.

SHIPS

The President asked Congress for $1,698,000,000 for the U. S. Maritime Commission, including $698,000,000 in cash for new ships and $1,296,000,000 in contract authorizations. The U. S. Maritime Commission announced a saving of more than 500,000 tons of steel in the building of 705 commission designed ships by construction methods not known in the first World War. The commission said the greatest single weight saving measure was the introduction of welding to replace riveting so that entire ships are now built without a single rivet.

AIR

OPM announced that during June 1,476 military planes were delivered to the Army, Navy, and Great Britain—142 more than the previous month and a new record. The War Department announced contracts of nearly $200,000,000 for new airplane manufacturing facilities and ordered all Air Corps Reserve officers except those in key civilian positions, to active duty by August 1. The Army Air Force established its own Air Staff to form Air Force plans and decide on equipment and other matters without the approval of the general staff as heretofore.

P. G. E. TO TAKE OVER YUBA DAM POWER PROJECT

Pacific Gas and Electric Company is immediately to begin construction of a hydro-electric power plant on the Yuba River, near Smartsville, Yuba County, according to announcement made today by P. M. Downing, vice president and general manager. The plant, costing approximately $1,00,000, will have a capacity of 9,000 kilowatts and will deliver about 60,000,000 kilowatts hours annually. It will operate under the water head developed by the War Department's Upper Narrows debris dam.

The project was planned originally by the Sacramento Valley Utility Company, all stock and assets of which have been acquired by P. G. and E. The Federal Power Commission has given official notice that the license will be issued.

Rogers Grocery Is Purchased By Earnest Brown Of North Columbia

By MIRIAM CRANDALL

Mrs. Geneva Rogers, proprietor of the Roger's Grocery, closed a deal on Tuesday with Earnest Brown of North Columbia who has purchased the store and property north east of Nevada City on the Tahoe Ukiah Highway.

The Browns will occupy the living quarters over the store and the three children will attend the local schools. Brown plans many substantial improvements in the building and lot.

Mr. and Mrs. Rogers' plans for the future are indefinite although they will leave Nevada City about August first.

Personnel Changes In Diamond Match

W. Ray Young, until recently manager of the lumber yard of Diamond Match at Artois, located between Willows and Orland, has been promoted to assist Superintendent Bert Foreman in charge of the local Diamond Match yard. Woody Biggs, formerly employed here has been promoted to a staff position in the Diamond Match branch at Redding, which has lately become one of the busiest yards in the state, due to the big dam construction at Keswick.

DEFENSE BRINGS STATE BIG FUND, TAXES REMOVE IT

By CLEM WHITAKER

California may be getting the lion's share of defense contracts, as several eastern and middle western congressmen have bitterly complained but California will also pay a lion's share of the bill—when it comes tax time!

If Congress approves the program drafted by the House Ways and Means Committee, California's pro rata of the new defense tax bill will total $226,980,580 annually, which amounts to approximately $33 for every man, woman and child in the state. That, of course, will be in addition to present federal taxes collected in California, which aggregate $460,000,000 a year.

All told, the Golden State will be expected to pungle up $686,800,000 annually for Uncle Sam with every probability that the bill will be progressively higher every year that Hitler remains at liberty.

On top of that, the California taxpayer must add his state taxes, his county and city taxes—and district taxes, if he happens to live in a tax district.

Under the new defense tax, individual income taxpayers and corporation taxpayers in Califronia will be expected to ante up $153,787,550 additional, inclusive of corporate excess profit taxes. California, with 2,264,006 automobiles, has the biggest motor vehicle registration in the United States—and the new use tax of $5 per car is expected to raise $13-210,030 here.

Californians, too, drink more than their quota of highballs, so that the increase in the liquor tax, from $3 to $4 a gallon is expected to cost us about $8,000,000. Boosts in gift and estate taxes (a lot of millionaires live and die here) will raise about $6,780,000.

Doubled taxes on autos, parts and accessories will take $4,500,000 a year from California motorists; increased rates on tires and tubes, $2,-$76,000; the 10 per cent tax on jewelry, $2,766,000; the 10 per cent tax on photographic equipment (we have more than our share of candid camera addicts), $900,000; increased rates on mechanical refrigerators, $1 260,000; a 10 per cent tax on sporting goods (we play a lot here) $510,000; the 5 per cent increased tax on candy and chewing gum, $1,-092,000; the soft drinks tax, $1,356,-000; the 10 per cent tax on furs, $1,242,000; the 5 per cent tax on passenger transportation, $2,274,000 and the revised telephone-telegraph tax (we talk a lot) $1,656,000.

And so it goes, down the whole list. Uncle Sam has been generous in defense contracts awarded to California. But California, when all is said and done, pays of generouly to Uncle!

British Seamen Are Nevada City Guests

Chief Petty Officers Alex Vincent and Bill Morrish, from a British cruiser now in San Francisco bay, were visitors in Nevada City during the weekend. They were guests of Mr. and Mrs. William Masterson of 149 Sacramento Street. Both were enthusiastic about the charms and scenic beauty of Nevada City and were especially grateful for the kindness and hospitality shown them by Nevada City residents.

Dr. W. B. Hardy of Alleghany was a business visitor in Nevada City Monday.

Forest Service Party In Camptonville

CAMPTONVILLE, July 17.— The annual forest service party sponsored by Ranger and Mrs. Frank Meggers was held last Saturday afternoon at their home at the forest ervice headquarters and 41 guests were present. Three sets of croquet were going after which a delightful dinner was served on long tables on the lawn amid a colorful setting of flowers which are prevalent at the headquarters. Following the dinner cards were enjoyed at the Camptonville Women's Club rooms, with the following as prize winnes: Contract bridge, Mrs. W. C. Williams, and Mrs. G. E. Mitchell; whist, Mrs. W. Nichols, and Mrs. Elton Carvin, cribbage, Mrs. Blanche Edgar.

This is the third annual forest service party attended by the following of the Tahoe national forest staff: Mr. and Mrs. Guerdon Ellis, Mr. and Mrs. Ernest Baxter, Mr. and Mrs. G. E. Mitchell, Mr. and Mrs. Charles Everhart, Mr. and Mrs. H. P. Birkinbine, Mr. and Mrs. W. Nichols, Mrs. Elwood Stone, J. D. Rafferty all of Nevada City. Mr. and Mrs. Edwin Smith of Placerville. Mr. Smith is the supervisor of the Eldorado forest. Mr. and Mrs. Elton O. Carvin, of Forest, Everett Thomas and soldier brother Herbert Thomas of Glendale and Riverside, resectively, Mrs. Blanche Edgar of Sacramento, Mr. and Mrs. Leo Chatfield, Mr. and Mrs. Loren VanKleel, Mrs. Iva Mae Clark, Mrs. Richard R. Pfiffer, John D. Holt, James P. Smith, Mr. and Mrs. F. Meggers of Camptonville.

Mrs. Meggers was assisted in entertaining her guests by Misses Cynthia and Virginia Church and Miss Etta Mae Zorn, and Messrs Dover Clauson, Hudie Sheppard, Edward Grinstaff, Earl Hughes and Mitchell Heatherly.

Bert Foreman was on the sick list Sunday.

SUMMONS IN PARTITION
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF NEVADA.

Action brought in the Superior Court of the County of Nevada, State of California, and the Complaint filed in the office of the County Clerk of said County.

DERRAH B. VAN DYKE,
LYNNE KELLY,
Attorneys for Plaintiff.

JUPITER CONSOLIDATED GOLD MINING COMPANY, a corporation, Plaintiff.

vs.

WESTERN TITLE INSURANCE COMPANY, a corporation; JOHN ROSENFELD'S SONS, a corporation; F. D. SHUCK; JANE DOE SHUCK, whose other and true name is unknown, wife of F. D. Shuck; HERMAN DOLLMAN; JANE DOE DOLLMAN, whose other and true name is unknown, wife of Herman Dollman; LEROY FOSS; JANE DOE FOSS, whose other and true name is unknown, wife of Leroy Foss; C. A. HEATH as Administrator of the Estate of Mary Mulroy, Deceased; FRED G. TIPPETT and MAY TIPPETT, his wife; AND ALSO ALL PERSONS UNKNOWN WHO HAVE OR CLAIM ANY INTEREST IN OR LIEN UPON THE REAL PROPERTY HEREIN DESCRIBED,
Defendants.

SUMMONS IN PARTITION

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETING TO:

Western Title Insurance Company, a corporation; John Rosenfeld's Sons, a corporation; F. D. Shuck; Jane Doe Shuck, whose other and true name is unknown, wife of F. D. Shuck; Herman Dillman, Jane Doe Dollman, whose other and true name is unknown, wife of Herman Dollman; Leroy Foss; Jane Doe Foss, whose other and true name is unknown, wife of Leroy Foss; C. A. Heath as Administrator of the Estate of Mary Mulroy, Deceased; Fred G. Tippett and May Tippett, his wife; and also all persons unknown who have or claim any interest in or lien upon the real property herein described, Defendants.

YOU, AND EACH OF YOU, ARE HEREBY NOTIFIED that an action has been commenced against you in the above entitled Court by the above named paintiff for the purpose of partitioning that certain real property situate, lying and being in the County of Nevada, State of California, particularly described as follows:

PARCEL 1.

All of the mineral deposits of every kind and description situate, lying and being in, on or under the following described property:

West half of Lot 8 of Northwest Quarter, West half of Lot 9 of Northeast Quarter, East half of Lot 10 of 12 of Northwest Quarter of Section 3, and East half of Lot 7 of Northwest Quarter, East half of Lot 10 of Northeast Quarter and East half of Lot 11 of Northeast Quarter of Section 4, all in Township 15 North, Range 8 East, M. D. M., excepting from the West half of said Lot 8, however, any portion thereof lying within the boundaries of Mineral Lot 48.

Excepting therefrom the outstanding interest of Title Insurance and Guaranty Company, a corporation, and excepting therefrom existing easements.

PARCEL 2.

FIRST: E½ of SW¼ of SW¼, SE¼ of SW¼ of Sec. 33, T. 16 N. R. 8 E. M. D. M.

Excepting therefrom existing easements.

SECOND: Lots numbered 1, 2 and 6 of NE¼ of Section 4 in T. 15 N. R. 8 E. M. D. M.

Excepting therefrom existing easements.

THIRD: All that portion of Lot 5 of the NW¼ of Section 3 in T. 15 N. R. 8 E. M. D. M., described as follows:

Magnetic variation 19 degrees east, viz., Commencing at the NW corner of said Lot 5, from which the NW corner of said Section 3 bears N one degree 34 minutes E. at the distance of 649.05 feet; thence S 87 degrees 40 minutes E. 712.28 feet along North line of Lot 5, to the intersection with the fence between property of P. F. Smith and North Star Mines Company; thence South 4 degrees 42 minutes East 54.62 feet along said fence to fence angle at a thirty inch pine tree; thence South 40 degrees and 3 minutes West 257.07 feet along fence line; thence South 41 degrees 55 minutes West 172.77 feet to fence corner at junction of fence lines between property of P. F. Smith, North Star Mines Co. and James McDonald; thence South 70 degrees and 34 minutes West 155.46 feet along fence line between property of P. F. Smith and James McDonald; thence South 68 degrees and 00 minutes West 77.06 feet along fence line; thence South 68 degrees 23 minutes West 118.86 feet along fence lines; thence South 67 degrees 34 minutes West 132.17 feet to a point on the Section line between Sections 3 and 4; thence North 1 degree 34 minutes East 584.09 feet along said Section line to the place of beginning, and containing 6.36 acres.

Reserving, however, unto Ellen J Smith, a widow, of the City of Grass Valley, County of Nevada, State of California, her heirs and assigns, the surface of said property to a depth of 100 feet, it being the intention that a conveyance cover only the mineral, ore and metal under said property, with the right to extract the same therefrom to any depth up to 100 feet of the surface thereof.

Excepting therefrom existing easements.

And you are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, wtihin TEN days after the service on you of this summons, if served within said Nevada County, or within THIRTY days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract or will apply to the Court for any other relief demanded in the Complaint.

GIVEN under my hand and the seal of said Superior Court at the County of Nevada, State of California, this 6th day of June, 1941.

(Seal).

R. N. McCORMACK, Clerk.
By R. E. DEEBLE, Deputy Clerk.
July 10, 17, 24, 31, Aug. 7, 14, 21, Sept. 4.

NEW REGISTRANTS TO BE PLACED IN OLD GROUP

SACRAMENTO, July 17.—(UP)—Some 41,000 young Californians who registered July 1 for selective service were notified today of the tentative date of Thursday, July 17, for a second national lottery which will determine precedence for a year's military training.

After their lottery numbers are determined, the second group of registrants will be integrated for induction among previous registrants with order numbers larger than the last inductee of their local board.

As an example, Brig. Gen. Joseph O. Donovan, state selective service director, explained, in an area with 100 old registrants and ten new registrants, one new registrant would be placed after each group of ten old registrants.

Donovan said a set of serial numbers, prefixed by the letter "S" and including the largest number used by any local draft board in assigning numbers to July 1 registrants would be placed in the lottery fish-bowl. The order in which serial numbers are drawn will provide a master list to be used by local draft boards in assigning "sequence numbers" to their second "R-day" registrants.

The registrant in each local board area whose serial number appears at the top or nearest the top of this second master list will be given "sequence number 1" in hsi area and so on until each new registrant has a number.

When "sequence numbers" have been assigned to all new registrants, local boards will assign each of them an order number to be determined by integrating them among those who registered at the first "R-day." October 16, 1940.

This means, Donovan explained, the new registrant with "sequence number 1" in his local board area will receive the lowest order number assigned to his group. The registrant with the highest "sequence number" will receive the largest order number for the same group.

PUEBLO INDIANS CULTURE TOPIC OF NEW BOOK

BERKELEY, July 17 — A book on Ceremonial Costumes of the Pueblo Indians illustrated with 40 elaborate color prints, has just been published by the University of California Press.

The book, said to be one of the most complete records of Pueblo Indian costumes and their use in ceremonials, is authored by Dr. Virginia More Roediger, graduate of Yale University and a native of that part of Colorado where some of the Pueblo tribes still live.

Dr. Roediger, who has studied the Indians, their costumes and their customs for years, made the original water color drawings from which the color plates in the book are printed.

The difficult and elaborate printing job was done under the direction of Samuel T. Farquar, University printer. Some of the color plates were run through the press 12 times, and nearly all were run through at least 10 times.

Dr. Roediger interprets in detail the meaning of different parts of costumes and masks in the dramatic religious rites of the Pueblo Indians. In addition there is a summary of the history and culture of the tribes.

The book is a detailed record of the civilization of a dying race. Dr. Roediger points out that the Pueblo Indians have clung to the customes of the period before the coming of the white man, but that the culture is now in a state of decay and may even disappear in the near future.

Need Printing Done—We can do it.

DEUTSCH WRITES ON RELIGIOUS FREEDOM LEGACY

BERKELEY, July 17.—Our Legacy of Religious Freedom, is the title of a new book by Dr. M. E. Deutsch, vice president of the University of California. The book was published by The National Conference of Christians and Jews, New York City. The foreword is by President George N. Shuster of Hunter College.

In this book, Dr. Deutsch shows first, of all, what it means to lose liberty; pointing out that in Europe the greatest agony came not through the loss of fortunes or throgh torture, but in the realization of people that they were condemned without hope to be the servants of a state for which persecution is the highest law.

Dr. Deutsch has taken from the writings of early Americans, Roger Williams, James Madison, Benjamin Franklin, George Washington, and others, their views on personal liberty, showing they knew well what they were about when they wrote the first amendment to the Declaration of Independence. He has followed the thought through the history of the nation and from ten prominent Americans of today he obtained their views on the subject.

"There are many blessings for which we as individuals and as a nation might give thanks," writes Dr. Deutsch. "I have preferred to select that blessing which is greater than business profit, greater than abundance of harvest, greater than health, greater than life itelf—freedom for the human spirit; a freedom alike from force and compulsion, from presecution and bloodshed."

Tourists visiting in Havana, Cuba, between January 1, and March 31, totaled 50,113.

LATE MINING NEWS OF NEVADA COUNTY

OMEGA QUARTZ MINE REOPENED

The Omega Quartz Mine in Willow Valley is being worked by Carl Trevethick and associates of Nevada City.

The ore is being trucked to the Queen Lil mill. The Bradley Mining Company formerly held an option on the Omega.

Good Recovery Obtained In Lava Cap Cyanide Plant, Schiffner Reports

According to Otto E. Schiffner, vice president and general manager of Lava Cap Gold Mining Corporation, Nevada City, recovery in the new cyanide plant is running 95 to 96 per cent on gold and 98 per cent on silver.

The plant, located at the Central mine of the Lava Cap group is considered one of the most modern cyanide plants in California, and was designed and built under the supervision of Schiffner and Bert Hardin, mine chemist. Twenty eight steel tanks range from 50 feet in diameter and 16 feet deep to 14 feet in diameter and 8 feet deep. The unit has a capacity to handle 25 tons of mill concentrates daily and is thought to be capable of opeating on a large tonnage basis. Until the plant definitely proves its ability to handle concentates, it is being operated on tailings and flotation middlings. Mill concentrates are being sent to the smelter at Selby.

Diamond drilling continues from the sixth level of the Central shaft, but so far has not revealed any heretofore unknown ore bodies.

Although the company continues to mill 400 tons of ore daily, some of the tonnage has been from lower grade rock, cutting down the average in values, and as a result, it was voted to pass up the regular dividend due June 30.

New Work Being Done At Original 16 to 1

The Original 16 to 1, one of the richest gold producers in California, is undergoing improvements in the main shaft and surface workings.

An all steel hoist frame with new drum heads has been installed at the famous Aleghany producer. Sinking and development work is being carried on in the main shaft. C. A. Bennetts of Nevada City is general manager of the property.

In Sacramento—

Rev. and Mrs. David Ralston are visiting in Sacramento. They will return Saturday.

Robbins and Barrows Operating Charlotte Placer Mining Claims

The Charlotte placer mine has been reopened by J. R. Robbins and P. W. Barrows. The property embraces over 160 acres of claims between the Middle and North Forks of the Yuba Rivers.

Two main layers of gravel have been found, the top a cemented formation and the lower one loose, with about 65 feet of lava between the layers.

In order to facilitate operations, a compressor is being installed. A 300 foot shaft is being sunk to reach the bottom of the lower level of the channel.

Surface work completed consists of a buukhouse, office and blacksmith shop.

PLANS STARTED FOR ANNUAL LEAGUE PICNIC

Committees have been named and have started functioning for the annua Mine Workers Protective League picnic, to be held as a benefit for widows and orphans of deceased members, at Lake Olympia August 13.

H. H. Hubbard has been named general chairman of the annual outing, and will be assisted by Ed J. Jones as secretary and Fred J. Carter as treasurer.

On the following committees are the following:

Soliciting: Frank Ducotey and Thomas J. Perry.

Grounds and transportation: Fanny Hocking, Sam Scoville.

Publicity: Ed J. Jones and H. H. Hubbard.

Music and dance: W. T. Terrill and Fred Carter.

Refreshments: Ed Olsen, Fanny Hocking, Frank Ducotey, Sam Scoville, W. T. Terrill.

Sports: Phil Angove, Jack Pearce.

Food. Fred Carter.

Games: Charles Rore, Jack Perry.

Always an outstanding event in the community, the picnic is expected to draw a throng of people, with a bigger and better program of sports and entertainment offered.

Improving In Tealth—

Andrew Cary, millman of this city, is showing improvement in his fight to regain his health. Cary became ill while working with his brother, George, on the Cary claims in the Mt. Oro district.

TAYLOR MINES RESUME WORK

It was reported here operations have been resumed on the Taylor group of mines on the Town Talk Ridge. Open cuts were drained and drifts have been started in on four veins.

The properties, owned by Charles Tayor of Grass Valley, have been leased to H. C. Dudley of Minnesota and M. I .Clark of Salt Lake City.

Work Being Done At Yellowjacket Property

John Hampton Lashbaugh of Nevada City, who has a lease on the Yellowjacket Mine near Forest, Sierra County, is supervising considerable development work on the quartz ledge of the property.

At present there is no work being done on the gravel channel. The Yellowjacket is owned by Dennis Coughlan of Nevada City.

North Star Boss Suffers Injuries

Archie Rowe, boss at the North Star Mine, is in the Miners Hospital here with a broken ankle and other injuries sustained yesterday afternoon when a machine being hoisted by a crane fell upon him. Rowe was taken to the hospital here by the Holmes ambulance service.

Hydraulic Mine Operating On Relief Hill Townsite

Ten years ago Western Gold, Inc., took over the Relief Hill hydraulic mine and slowly developed it. Now that debris from the mine can be dumped behind the Yuba Narows debris dam near Smartville, the mine is being operated as one of the larger pits behind the dam.

Before operations suspended last week because of lack of water the firm had two monitors washing an 87 foot bank of gravel that extends in width for about 1,000 feet. Twenty one men worked three shifts every day to keep the two modern type monitors cutting into the bank.

The mine is located but a short distance from North Bloomfield in Nevada County, and in the early days of California mining a town of 1,200 persons stood on the site now being washed away. It was the town of Relief Hill from which the mine was named. These pepole are said to have taken out much gold, but it was all mined by tunnels and shafts. Washing operations are continually uncovering the gold workings. Later some hydraulicking was done but on a small scale. Two small pits were on the property when Western Gold, Inc., took it over in 1931.

Water is brought to the two No. 51 Joshua Hendy monitors by a 21-mile ditch owned by the firm. The flow is from Poormans Creek near Graniteville. It comes to a pipe reservoir near the mine and is then taken to the pit by a 22 inch pipe. This pipe tapers to a 15 inch pipe leading to each monitor. From 200 to 300 feet of the smaller pipe are used between the monitors and the 22 inch pipe. There are 2,850 feet of the big pipe carrying the water into the pit.

Each day 1,300 miners inches of water, under 270 foot pressure are delivered. Six and seven inch nozzles play the water to the gravel banks. Plans are now underway for a storage system that will provide enough water to work the monitors for eight to nine months each year.

This year, because there is a storage dam for the tailings, the mine is putting out as much in 8 hours as it used to in 36 hours. The Relief Hill has been worked five of the ten years Western Gold has owned it, but only on a small scale as it was necessary to hold the tailings in a creek below the mine.

Between 3500 and 4000 cubic yards of gravel are washed down from the mountain and sent through the sluices each day. The sluice is 1800 feet in length with 388 feet in an outlet tunnel. It is four feet wide and is equipped with 40 pound T-rail for riffles.

The gravel bank at the mine is easy to wash for there is very little of the cemented type of material which requires a lot of blasting. The major portion of the necessary blasting is the "bulldozing" of big rocks, which the monitors cannot send down the sluices. These are broken up with 40 per cent dynamite put on with a mud cap. There also are some beds of pipe clay which must be broken loose with a stick of dynamite and here again 40 per cent gelatine is used. In this case a hole is drilled straight into the bed and the dynamite is placed deep in it. At present, blasting operations are being carried on along the two side walls of the deep ditch through which the sluice is arranged. This work is in preparation for giving more drop to the sluice for a faster run off of the water.

In addition, the Relief Hill is using a D-4 Caterpillar equipped with a bulldozer to mine the areas not reached by the monitors and for the final clean up next to the bedrock. The Caterpillar cleans up at the rate of five acres in 7 to 10 days. Previously, when this was done by hand it would take at least one month. Great care is exercised to determine that the area mined by the Caterpillar is of enough value to be worth while. Continuing panning tests are made of the soil as it is torn loose by the machine.

C. E. Clark is superintendent at the mine with his office in North Bloomfield. A. B. Landsburg is the foreman. Western Gold, Inc., has its main office at 943 Russ Building, San Francisco, W. H. Taylor is president and George Brent is secretary.

Plum Valley Properties Being Reopened

The Bowman Mine in Plum Valley near Alleghany is being worked by William Ennis under a lease and bond. He is using a pump to furnish pressure for hydraulicking on the porphyry ledge. Values are increasing as depth is gained Ennis states.

In the same district Carl Johnson and D. H. Casey have acquired the Mosquito group of claims, a gravel property that was worked 60 years ago. Old timers, it is reported, worked the claims, using rainwater for washing and averaged over $3 a day. Bank caveins compelled them to cease work.

Water rights from the old Pike City ditch have been obtained for the mine.

GETTING GOOD PANNING RETURNS

Artie Haley and Clarence Terry, school children of this city, are obtaining fair results from panning on Deer Creek. It is the first mining venture of the two boys and they are filled with enthusiasm over the results of their pannings.

OMEGA HYDRAULIC MINE OPERATIONS CLOSE FOR SEASON

Omega Mine hydraulic operations have halted for the season because of lack of water. The cleaning of the sluice boxes is now proceeding.

The Omega had been working for the past six months with three monitors. During those months thousands of yards of gravel have been washed through the sluice boxes. The exact amount of gravel worked and the amount of gold obtained will not be known until after the cleanup is completed.

The Omega began opeating shortly after the completion of the Upper Narrows Debris Dam near Smartville, constructed to allow resumption of hydraulic mining after a shutdown since 1884 when the Sawyer act went into effect.

During the hight of production the Omega employed in excess of 50 men. Some of the men will be employed during the off season building flumes and ditches.

It is believed there is sufficient gravel at the Omega Mine for twenty years operation.

Jack Little is general manager of the hydraulic property and Theodore Larsen, veteran hydraulic mining expert, is superintendent.

Hopes To See Arctic In Operation Again

L. F. Utter of Los Angeles, principal owner of the Arctic Mine above Washington is seeking to straighten out financial difficulties which have arisen against the property since it was operated on a lease by the Kemmerer Development Company.

Liens against the Arctic were filed by the Alpha Stores, Ltd., and the Clinch Mercantile Company.

Utter hopes to see the Arctic operating again in the near future.

Returns From Vacation—

John Mann, general manager of the Empire-North Star and Pennsylvania Mines in Grass Valley, has resumed his duties following a short vacation.

Sketches Of The Gold Country

BLOOMFIELD HOTEL

Sketches of the Gold Country embraces short, vivid recitals of the scenic and historical charm of Nevada City, Grass Valley, Dutch Flat, Washington, Bloomfield, French Corral, You Bet and Red Dog, Rough and Ready, and North San Juan.

The book, written by Harley M. Leete, Jr., is illustrated with pen drawings by Clifford Warner.

It Sells for 50 cents per copy

It is on sale in Nevada City at the Nugget office, the Dickerman Drug Store, the Shamrock Cafe, and the Harris Drug Store. In Grass Valley, Samson's sells the book. In Sacramento, Levinson's Book store; in San Francisco at Paul Elder's, Newbegin, John Howell and David Magee.

Old Age Pensioners Receives Notice From Auditor R. N. McCormack

County Auditor R. N. McCormack has prepared the following notice for recipients of old age security aid and aid to the needy blind.

"The California Aid to Needy Blind Law as amended July 1, 1941 in conformity with Federal requirements, requires that all income and resources, except "casual income and inconsequential resources," be considered in determining the amount of the grant of aid. As the law no longer exempts from deduction certain income in excess of $50. unless the need of such additional income is established there will be changes as of July 1, 1941 in the grant of aid for many of the persons receiving income formerly classified as 'exempt,' or for the value of occupancy of their own homes.

"Inasmuch as the change in the law was an urgency matter to insure continuance of federal funds, the county welfare departments were compelled, immediately, to make adjustments effective July 1, 1941, in many grants. They did this on the basis of the most accurate data available, frequently from information on income and resources in the record. In many cases, it was impossible to discuss the adjustment with the recipient because of the need of haste.

"Any change in your grant as of July 1, 1941 was made on the most reliable basis available to the county welfare department. If there has been any change in your circumstances which you have not brought to the attention of the county welfare department, it is advised that you do so immediately, so that an accurate determination may be made at once of the proper amount of your grant under the new law."

Byran Krough Dies While Enroute To Arizona For Health

Nevada City residents were saddened by the news yesterday that Bryan E. Krough, local resident who had been ill for many months and just recently reached the decision to go to Arizona for his health, had passed away at the home of a sister in Santa Barbara.

Krough had been at the veterans hospital in Livermore for the past several months. Recently the Krough home on Lost Hill was sold and Mrs. Krough and daughter, Betty Lou Krough, began preparing for the Arizona trip. Krough's condition became worse when the family reached Santa Barbara and he died at his sister's home.

The funeral service and interment will be at the Presidio in San Francisco. Krough was a veteran of the World War.

Mrs .Fred Garrison of Woodland is visiting with friends at Pino Alta on the Town Talk Ridge.

THERE's no hocus pocus about building anything—from a new porch to a new city. It's out in the open where we can see all of the work. What it takes in men and materials can be seen for the looking.

It's easy to see what our local Construction Industry has done for this town! Look around you! And think back a little ways. It's hard to believe this is the same town.

If you look behind the scenes you'll see more happiness, more health and a better future for all of us. That's what our local Construction Industry has done for this town! That's the biggest job it's done.

It's mighty important to realize *how* local Construction has done its big job. The job has been done by individual effort—by *free enterprise.*

That's an open air system, too. Where everybody works on an equal basis. Where nothing is hidden by red tape.

Invest now—in your own home—in your own community.

NEVADA CITY LUMBER COMPANY

Church Notes

—Catholic Church

Two masses will be celebrated Sunday at the St. Canice, Catholic Church. The irst mass will be at 8 a. m. and the second at 10:30 a. m. Father Patrick O'Reilly will have charge of the services.

—Christian Science Society

The Christian Science Society of Nevada City holds service at 114 Boulder Street every Sunday at 11 a. m. Sunday School 9:45 a. m. A testimonial meeting is held the first Wednesday of each month at eight p. m.

"The Lord wil command his lovingkindness in the daytime, and in the night his song shall be with me and my prayer unto the God of my life." These words from Psalms comprise the Golden Text to be used on Sunday, July 20, in all Churches of Christ, Scientist, branches of the Mother Church, The First Church of Christ, Scientsit in Boston, Mass.

The subject of the Lesson-Sermon will be "Life." Included among the Scriptural selections will be: "How excellent is thy lovingkindness. O God! therefore the children of men put their trust under the shadow of thy winds. For with thee is the fountain of life: in thy light shall we see light" (Ps. 36: 7, 9.)

The following passage from the Christian Science textbook, "Science and Health with Key to the Scritures" by Mary Baker Eddy will also be included: "When we realzie that Life is Spirit, never in nor of matter, this understanding will expand into self completeness finding all in God, good, and needing no other consciousness. Because Life is God, Life must be eternal, self- existent. Life is the everlasting I AM, the Being who was and is and shall be, whom nothing can erase." (pp. 264, 289.)

GEMS OF THOUGHT

A nation is the unity of a people.—Coleridge.

A state to prosper must be built on foundations of a moral character and this character is the principal element of its strength and the only guaranty of its permanence and prosperity.—Jabez Curry.

The commandments of God are the bread of life for the nations.—Roswell D. Hitchcock.

God is Father, infinite, and this great truth, when understood in its divine metaphysics, will establish the brotherhood of man, end wars, and demonstrate "on earth peace, good will toward men."—Mary Baker Eddy.

The true grandeur of nations is in those qualities which constitute the true greatness of the individual.—Charles Sumner.

Until nations are generous they will never be wise; true policy is generous policy; all bitterness, selfishness, etc., may gain small ends, but lose great ones.—Washington Irving.

—Methodist Church

Sunday school at 10 a. m. Bring the children. The Sunday School room is nice and cool. Let us not forget the church in the vacation months. All teachers and scholars who are home kindly be on hand Sunday morning. Preaching service at 11 a. m. Special musical selections. Sermon "I Favor With God," Rev. David Ralston. The public is cordially invited. As most of our young people are in Mount Hermon this week there will not be any service of the leaguers. Preaching service at 7:30 p. m.

A big sing of the hymns of the church led by Bill Rickard. Have you some favorites? Let us sing them Sunday evening. Instrumental solo, Johnny Blamey. Sermon "A Faithful Saying," pastor. Come and bring your friends. Let us not get tired or become indifferent to the church at any time of the year. You may become indifferent to some things and egt by, but you cannot succeed spiritually and neglect the church.

Week events—Bible study and praye hour Tuesday at 7:3 p. m. Choir practice Wednesday at 7:30 p. m. Young people's prayer hour Thursday evening.

—Trinity Episcopal Church

Sunday's services in the Trinity Episcopal Church will be as follows:

8:30 a. m. Holy Communion.

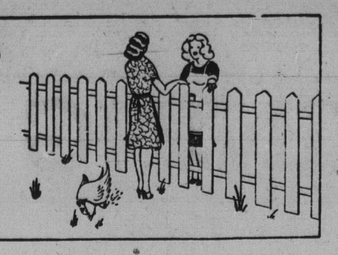
10:00 a. m. Church School.

11:00 a. m. Morning prayer and sermon. The rector, Rev. H. Thomas Pateman, will address the congregation. The music will be under the direction of Mrs. C. A. Libbey. Miss Mary Libbey will be at the organ.

No Trespassing, For Rent, Rooms for Rent and For Sale Placards on Sale At The Nugget Office.

THIS BUSINESS OF *Living*

BY SUSAN THAYER



THE INDUSTRIAL TRIANGLE

It was a small white house set in a flower bordered lawn on the edge of town. Very like other houses on the same street and on similar streets in other cities. And the scenes that occur in it are pretty typical of what is happening in many places in America today.

First Mary came home following an afternoon of shopping. Grandpa was sitting on the porch, and Mary paused to talk to him, a light of pleasure in her eyes. "You know, Gramps," she said, "I bought the prettiest print dress today — and I got a grand bargain! I'm pretty proud of my shopping abiity right at this moment."

Gramps was still sitting there, smiling at Mary's remark, when John arrived, home from the day at the actory. "Hello, Pa." he said. "Boy, things are booming down at the plant! Looks to me like a good time for the boss to raise wages." Mary came out and stood in the door way as John made his declaration. "Maybe the boss would have to raise prices too, or maybe cut down on the dividends, but it would make things a lot better to us."

Gramps carefully knocked the ashes out of his pipe beore replying. "Funny you two should both be talking the way you are today," he remarked. "Mary is interested in the prices. She wants them to stay down. You're interested in wages—you'd like to see them go higher, even if it means raising prices. And then you mentioned dividends—"

"Yes?" Mary and John were both following his discussion closely, and interrupted in the same breath.

"Well, you know I have a little stock and the dividends help me chip in on the household expenses. And then the three of us have a little money put away in the bank and in insurance policies—and the bank and the insurance company have some of that invested in industry in the hope of a fair return—"

"Well, Gramps, that's pretty true" John agreed. "But what's the solution?"

"I think I see it," said Mary eagerly. "Here, Gramps. if you'll lend me your pencil." She rapidly drew a triangle on the back page of the evening newspaper. "Look—This is like industry. It has three different angles to it and we fit into each one of the angles at various times. When John gets his paycheck, he's in the worker's angle. When I take the money he earns to shop for us. It's the 'consumer angle.' And then when we count up our savings, we look at industry who as one who wants a good return on his money."

"You're right, Mary," Gramps said, summing up the matter. "And though those three angles sometimes seem to conflict they don't really as long as management keeps a proper balance among wages, price and dividends. Right now, we're in the consumer's angle—what's cooking for supper, Mary?"

Arm in arm, the three disappeared into the little white house.

Broadcast July 18 On Grass Valley

Grass Valley will take the air July 18 when Colonel Corn with the Carter Family and their Travelin' Show "stop in" at Grass Valley. The Travelin' Show is an informal, homey program of mountain music and Grass Valley will receive its share of attention during the program from 9:35 to 10:30 p m. tomorrow night over KFBK, Sacramento, California: 1530 on the dial.

I WANTED WINGS ON LOCAL SCREEN NEXT SUNDAY

Because of its gruesome possibilities, all persons except those with vital functions were barred when Paramount filmed the crash and the burning of an Army BT-9 for a scene in "I Wanted Wings," the story of America's air program, which comes Sunday to the Nevada Theatre.

The scene, made under the supervision of Director Mitchell Leisen, was staged at a location a few miles from Ranndolph Field, where much of the picture was filmed with army air corps cooperation. The location was kept secret from even the actors, until less than an hour before the scene was to be filmed. On hand for the filming of the spectacular sequence were several ambulances, an emergency truck equipped with firefighting apparatus, the cameraman and a group of technicians.

When all was in readiness, Paul Mantz, ace motion picture stunt pilot, came diving out of the sky and spun his ship into the ground. Technicians then cleverly prepared the plane for burning, as William Holden and Ray Milland, and Phil Brown, who is featured stood by wearing fire proofed makeup on their faces and fire proofed clothing. Brown then crawled into the cockpit, waiting to be rescued by Holden and Milland. Technicians then set fire to the plane. Holden dashed to the rescue, as the cameras ground out the scene.

Although the most elaborate precautions were taken, both Brown and Holden were slightly singed by the flames.

Besides this perilous crash, two others were filmed for "I Wanted Wings". One of the crashes involves a Flying Fortress.

TWENTY MILLONS SLASHED FROM STATE DEFICIT

SACRAMENTO, July 17.—(UP)—State income reached the highest level in history during the fiscal year ended June 30 and resulted in a $20,000,000 slash in the general fund cash deficiency, Controller Harry B. Riley reported today.

Income for the state's general fund totaled $195,206,894 during the 12 month period, $21, 739,764 above the previous record of $173,467,130, Riley said.

The cash deficiency, meantime, dropped $20,377,573 to $61,732,-896 on June 30.

Riley explained that increased sales tax revenue and curtailed expenditures for unemployment relief primarily were responsible for the state's improved financial condition. The sales tax yielded $106,417,384 up $15,312,957, while relief costs dropped $26,086,093 to less than half of the previous year's total.

Total expenditures for the past year totaled $176,498,523 as compared with $200,866,567 for the prior fiscal year. The decrease was $24,368,044.
